Application/Control Number: 10/795,955

Art Unit: 3739

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dan Ryan on March 6, 2006.

The application has been amended as follows:

Claim 4, line 5: "compound" has been replaced with -composition--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose the specific method steps of providing an introducer device having separate closure composition and utility lumens, position the device at a tissue site, delivering a catheter through the utility lumen to treat tissue, withdrawing the catheter and then delivering a closure composition through the separate closure lumen as set forth in the claims. Many of the cited prior art documents set forth similar devices that include catheters for providing a closure material (e.g. Tay et al, US Patent No. 5,507,744). The Van Tessel et al (5,728,132) device is the most structurally similar device as it includes a central lumen and a separate closure composition lumen. However, Van Tessel et al do not disclose the specific method steps for performing the method as recited in applicant's claims, in particular providing a catheter and performing a treatment on tissue with the catheter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 6am-3pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
